DonorNet: Test Cases

Manual test cases for Patients, Donors, Blood Banks and Admins

How to Use This Document

Each test case lists its ID, scenario, steps, test data, expected result and pre-requisite. Fill in the **Actual Result** and **Pass/Fail** rows while testing. Passwords are case-sensitive.

ID Prefix	Area
P_SIGNUP, D_SIGNUP	Patient / Donor sign-up
LOGIN	Login (patient, donor, blood bank)
FP	Forgot password
SD, SBB	Search donors / blood banks
BB_PREQ	Blood bank: patient requests
BB_STOCK, BB_MKREQ	Blood bank: stock and blood requests
ADMIN	Admin

Contents

1 Patient Sign-up **2**

2 Donor Sign-up **8**

3 Login (Patient, Donor and Blood Bank) **13**

4 Forgot Password **17**

5 Searching and Filtering Donors (Patient) **21**

6 Searching and Filtering Blood Banks (Patient and Donor) **24**

7 Blood Bank: Accepting and Rejecting Patient Requests **27**

8 Blood Bank: Managing Stock and Making Blood Requests **30**

9 Admin **34**

1 Patient Sign-up

Test Case ID	P_SIGNUP_01
Test Scenario	Successful sign-up as a patient with valid details including a strong password.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Patient" and then "Next". 4. Fill in valid details (username, email, password, address, phone, city, blood type, proof, and latest CBC). 5. Enter a password that: - Is at least 8 characters long - Contains at least 1 special character (e.g., @, #, $) - Contains at least 1 number (e.g., "Secure@123") 6. Once all details have been filled, click "SIGNUP!" to finish.
Test Data	Username: Ali Raza Email: ali.raza@gmail.com Password: Secure@123 Address: House 10, Street 5, Karachi Phone: 03001234567 City: Karachi Blood Type: B+ Proof Document: CNIC_AliRaza.pdf Latest CBC: CBC_Report_AliRaza.pdf
Expected Result	Patient account is created successfully and a "Your request has been sent for approval" confirmation is shown. The account stays pending until an admin approves it.
Pre-Requisite	DonorNet app installed, internet connection active, and patient sign-up form accessible.
Actual Result	
Pass/Fail	

Test Case ID	P_SIGNUP_02
Test Scenario	Sign-up fails with a weak password.
Test Steps	1. Follow steps 1-4 from P_SIGNUP_01. 2. Enter an invalid password such as “weak”, “weakpass”, or “weakpass1”. 3. Click “SIGNUP!” to finish.
Test Data	Username: Sana Ahmed Email: sana.ahmed@gmail.com Password: weakpass Address: Apt 12, Gulberg, Lahore Phone: 03111234567 City: Lahore Blood Type: O- Proof Document: CNIC_SanaAhmed.pdf Latest CBC: CBC_Report_SanaAhmed.pdf
Expected Result	Error message: “Password must be 8+ characters with at least 1 number and 1 special character.”
Pre-Requisite	DonorNet app installed, internet connection active, and patient sign-up form accessible.
Actual Result	
Pass/Fail	

Test Case ID	P_SIGNUP_03
Test Scenario	Sign-up fails with missing required fields.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Patient" and then "Next". 4. Leave one or more mandatory fields (e.g., email, blood type) blank. 5. Click "SIGNUP!" to finish.
Test Data	Username: Hamza Khan Email: [Blank] Password: Hamza@123 Address: Block B, Islamabad Phone: 03451234567 City: Islamabad Blood Type: [Blank] Proof Document: CNIC_HamzaKhan.pdf Latest CBC: CBC_Report_HamzaKhan.pdf
Expected Result	Error message: "Please fill all the required fields."
Pre-Requisite	DonorNet app installed, internet connection active, and patient sign-up form accessible.
Actual Result	
Pass/Fail	

Test Case ID	P_SIGNUP_04
Test Scenario	Sign-up fails with an invalid email format.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Patient" and then "Next". 4. Enter an invalid email (e.g., "patient@invalid") in the email field. 5. Fill in all other fields with valid data. 6. Click "SIGNUP!" to finish.
Test Data	Username: Areeba Malik Email: patient@invalid Password: Areeba@123 Address: House 22, Clifton, Karachi Phone: 03021234567 City: Karachi Blood Type: B+ Proof Document: CNIC_AreebaMalik.pdf Latest CBC: CBC_Report_AreebaMalik.pdf
Expected Result	Error message: "Invalid email format."
Pre-Requisite	DonorNet app installed, internet connection active, and patient sign-up form accessible.
Actual Result	
Pass/Fail	

Test Case ID	P_SIGNUP_05A
Test Scenario	Sign-up fails with an already registered email.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Patient" and then "Next". 4. Fill in an email that is already registered. 5. Fill in valid and unique details in all other fields, including username. 6. Click "SIGNUP!" to finish.
Test Data	Username: Bilal01 Email: bilal123@gmail.com (already registered) Password: Bilal@123 Address: 56-A, Gulberg, Lahore Phone: 03211234567 City: Lahore Blood Type: O+ Proof Document: CNIC_BilalAsif.pdf Latest CBC: CBC_Report_BilalAsif.pdf
Expected Result	Error message: "Email is already registered."
Pre-Requisite	DonorNet app installed, internet connection active, and patient sign-up form accessible. The email used must already be registered.
Actual Result	
Pass/Fail	

Test Case ID	P_SIGNUP_05B
Test Scenario	Sign-up fails with an already registered username.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Patient" and then "Next". 4. Fill in a username that is already taken. 5. Fill in valid and unique details in all other fields, including email. 6. Click "SIGNUP!" to finish.
Test Data	Username: Areeba Malik (already registered) Email: hira.khan23@gmail.com Password: Hira@321 Address: 12-C, Model Town, Karachi Phone: 03451239876 City: Karachi Blood Type: B- Proof Document: CNIC_HiraKhan.pdf Latest CBC: CBC_Report_HiraKhan.pdf
Expected Result	Error message: "Username is already taken."
Pre-Requisite	DonorNet app installed, internet connection active, and patient sign-up form accessible. The username used must already be registered.
Actual Result	
Pass/Fail	

2 Donor Sign-up

Test Case ID	D_SIGNUP_01
Test Scenario	Successful sign-up as a donor with valid details including a strong password.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Donor" and then "Next". 4. Fill in valid details (username, email, password, address, phone, city, blood type, proof, and latest CBC). 5. Enter a password that: - Is at least 8 characters long - Contains at least 1 special character (e.g., @, #, $) - Contains at least 1 number (e.g., "Secure@123") 6. Once all details have been filled, click "SIGNUP!" to finish.
Test Data	Username: ahmed_donor Email: ahmed.raza99@gmail.com Password: Secure@123 Address: 123-G, DHA Phase 5, Karachi Phone: 03001234567 City: Karachi Blood Type: AB+ Proof Document: CNIC_AhmedRaza.pdf Latest CBC: CBC_AhmedRaza_April2025.pdf
Expected Result	Donor account is created successfully and a "Your request has been sent for approval" confirmation is shown. The account stays pending until an admin approves it.
Pre-Requisite	DonorNet app installed, internet connection active, and donor sign-up form accessible.
Actual Result	
Pass/Fail	

Test Case ID	D_SIGNUP_02
Test Scenario	Sign-up fails with a weak password.
Test Steps	1. Follow steps 1-4 from D_SIGNUP_01. 2. Enter an invalid password such as “weak”, “weakpass”, or “weakpass1”. 3. Click “SIGNUP!” to finish.
Test Data	Username: zara_donor Email: zara.mir@gmail.com Password: weak Address: 22/A, North Nazimabad, Karachi Phone: 03001112222 City: Karachi Blood Type: B+ Proof Document: CNIC_ZaraMir.pdf Latest CBC: CBC_ZaraMir_April2025.pdf
Expected Result	Error message: “Password must be 8+ characters with at least 1 number and 1 special character.”
Pre-Requisite	DonorNet app installed, internet connection active, and donor sign-up form accessible.
Actual Result	
Pass/Fail	

Test Case ID	D_SIGNUP_03
Test Scenario	Sign-up fails with missing required fields.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Donor" and then "Next". 4. Leave one or more mandatory fields (e.g., email, blood type) blank. 5. Click "SIGNUP!" to finish.
Test Data	Username: ali_donor Email: [Blank] Password: Secure#2025 Address: 45-D, DHA Phase 6, Lahore Phone: 03456677889 City: Lahore Blood Type: [Blank] Proof Document: CNIC_Ali.pdf Latest CBC: CBC_Ali_March2025.pdf
Expected Result	Error message: "Please fill all the required fields."
Pre-Requisite	DonorNet app installed, internet connection active, and donor sign-up form accessible.
Actual Result	
Pass/Fail	

Test Case ID	D_SIGNUP_04
Test Scenario	Sign-up fails with an invalid email format.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Donor" and then "Next". 4. Enter an invalid email (e.g., "patient@invalid") in the email field. 5. Fill in all other fields with valid data. 6. Click "SIGNUP!" to finish.
Test Data	Username: ali_donor Email: donor@invalid Password: Secure#2025 Address: 45-D, DHA Phase 6, Lahore Phone: 03456677889 City: Lahore Blood Type: A+ Proof Document: CNIC_Ali.pdf Latest CBC: CBC_Ali_March2025.pdf
Expected Result	Error message: "Invalid email format."
Pre-Requisite	DonorNet app installed, internet connection active, and donor sign-up form accessible.
Actual Result	
Pass/Fail	

Test Case ID	D_SIGNUP_05A
Test Scenario	Sign-up fails with an already registered email.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Donor" and then "Next". 4. Fill in an email that is already registered. 5. Fill in valid and unique details in all other fields, including username. 6. Click "SIGNUP!" to finish.
Test Data	Username: ali_donor_new (unique) Email: ali.donor@gmail.com (already registered) Password: Secure#2025 Address: 45-D, DHA Phase 6, Lahore Phone: 03456677889 City: Lahore Blood Type: A+ Proof Document: CNIC_Ali.pdf Latest CBC: CBC_Ali_March2025.pdf
Expected Result	Error message: "Email is already registered."
Pre-Requisite	DonorNet app installed, internet connection active, and donor sign-up form accessible. The email used must already be registered.
Actual Result	
Pass/Fail	

Test Case ID	D_SIGNUP_05B
Test Scenario	Sign-up fails with an already registered username.
Test Steps	1. Open the DonorNet app. 2. Click "SignUp". 3. Select "Donor" and then "Next". 4. Fill in a username that is already taken. 5. Fill in valid and unique details in all other fields, including email. 6. Click "SIGNUP!" to finish.
Test Data	Username: ali_donor (already registered) Email: new.ali@gmail.com Password: Secure#2025 Address: 45-D, DHA Phase 6, Lahore Phone: 03456677889 City: Lahore Blood Type: A+ Proof Document: CNIC_Ali.pdf Latest CBC: CBC_Ali_March2025.pdf
Expected Result	Error message: "Username is already taken."
Pre-Requisite	DonorNet app installed, internet connection active, and donor sign-up form accessible. The username used must already be registered.
Actual Result	
Pass/Fail	

3 Login (Patient, Donor and Blood Bank)

Test Case ID	LOGIN_01
Test Scenario	Login fails when the password does not match the registered email/username.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Enter a registered email or username. 4. Enter an incorrect password. 5. Click "LOGIN".
Test Data	Email/Username: ali.raza@gmail.com Password: wrongpass123
Expected Result	Error message: "Invalid credentials. Please try again."
Pre-Requisite	The email/username exists in the system.
Actual Result	
Pass/Fail	

Test Case ID	LOGIN_02
Test Scenario	Login fails when the email/username is not registered.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Enter an unregistered email or username. 4. Enter any password. 5. Click "LOGIN".
Test Data	Email/Username: fakeuser@gmail.com Password: anypass123
Expected Result	Error message: "Invalid credentials. Please try again."
Pre-Requisite	The email/username does not exist in the system.
Actual Result	
Pass/Fail	

Test Case ID	LOGIN_03
Test Scenario	Successful patient login with email and password.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Enter a registered patient email. 4. Enter the correct password (passwords are case-sensitive). 5. Click "LOGIN".
Test Data	Email: ali.raza@gmail.com Password: Secure@123
Expected Result	User is redirected to the Patient home screen.
Pre-Requisite	Patient account is registered and approved by an admin.
Actual Result	
Pass/Fail	

Test Case ID	LOGIN_04
Test Scenario	Successful patient login with username and password.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Enter a registered patient username. 4. Enter the correct password. 5. Click "LOGIN".
Test Data	Username: Ali Raza Password: Secure@123
Expected Result	User is redirected to the Patient home screen.
Pre-Requisite	Patient account is registered and approved by an admin.
Actual Result	
Pass/Fail	

Test Case ID	LOGIN_05
Test Scenario	Successful donor login.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Enter a registered donor email or username. 4. Enter the correct password. 5. Click "LOGIN".
Test Data	Email: ahmed.raza99@gmail.com Password: Secure@123
Expected Result	User is redirected to the Donor home screen.
Pre-Requisite	Donor account is registered and approved by an admin.
Actual Result	
Pass/Fail	

Test Case ID	LOGIN_06
Test Scenario	Successful blood bank login.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Enter the blood bank email created by the admin. 4. Enter the correct password. 5. Click "LOGIN".
Test Data	Email: citybloodbank@example.com Password: bloodbank@123
Expected Result	User is redirected to the Blood Bank home screen (Patient Requests, My Stocks, etc.).
Pre-Requisite	Blood bank account has been created by an admin.
Actual Result	
Pass/Fail	

Test Case ID	LOGIN_07
Test Scenario	Login fails when required fields are empty.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Leave the email/username field, the password field, or both blank. 4. Click "LOGIN".
Test Data	Case 1: Email/Username: [Blank], Password: abc123 Case 2: Email/Username: ali.raza@gmail.com, Password: [Blank] Case 3: Email/Username: [Blank], Password: [Blank]
Expected Result	Error message: "Please fill all the required fields."
Pre-Requisite	No user is logged in.
Actual Result	
Pass/Fail	

Test Case ID	LOGIN_08
Test Scenario	Login with an account that is still pending admin approval.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Enter the email of a newly registered account that has not been approved yet. 4. Enter the correct password. 5. Click "LOGIN".
Test Data	Email: ali.raza@gmail.com (pending) Password: Secure@123
Expected Result	User is not taken to the home screen and is informed that the account is awaiting admin approval.
Pre-Requisite	Account was registered but has not yet been approved or declined by an admin.
Actual Result	
Pass/Fail	

4 Forgot Password

Test Case ID	FP_01
Test Scenario	User clicks "Forgot Password?" (checks that the button works).
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Click "Forgot Password?".
Test Data	Not applicable.
Expected Result	User is redirected to the Password Reset Request screen.
Pre-Requisite	DonorNet app installed.
Actual Result	
Pass/Fail	

Test Case ID	FP_02
Test Scenario	Request a password reset OTP with a registered email.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Click “Forgot Password?”. 4. Enter a valid registered email. 5. Click “REQUEST OTP”.
Test Data	Email: ali.raza@gmail.com
Expected Result	Success message: “Password reset OTP sent to your email.”
Pre-Requisite	DonorNet app installed and the “Forgot Password?” button works. The email is registered.
Actual Result	
Pass/Fail	

Test Case ID	FP_03
Test Scenario	Request a password reset OTP with an unregistered email.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Click “Forgot Password?”. 4. Enter an unregistered email. 5. Click “REQUEST OTP”.
Test Data	Email: userunknown@gmail.com
Expected Result	Error message: “This email is not registered.”
Pre-Requisite	DonorNet app installed and the “Forgot Password?” button works. The email does not exist in the system.
Actual Result	
Pass/Fail	

Test Case ID	FP_04
Test Scenario	Request a password reset OTP with an invalid email format.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Click “Forgot Password?”. 4. Enter an email in an invalid format (e.g., “user@@gmail”, “user.com”, “@user.com”). 5. Click “REQUEST OTP”.
Test Data	Email: user@@gmail
Expected Result	Error message: “Please enter a valid email address.”
Pre-Requisite	DonorNet app installed and the “Forgot Password?” button works.
Actual Result	
Pass/Fail	

Test Case ID	FP_05
Test Scenario	Request a password reset OTP with a blank email field.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Click “Forgot Password?”. 4. Leave the email field blank. 5. Click “REQUEST OTP”.
Test Data	Email: [Blank]
Expected Result	Error message: “Email is required.”
Pre-Requisite	DonorNet app installed and the “Forgot Password?” button works.
Actual Result	
Pass/Fail	

Test Case ID	FP_06
Test Scenario	Reset the password using a valid OTP and a strong new password.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Click "Forgot Password?". 4. Enter a registered email and click "REQUEST OTP". 5. Enter the OTP received by email. 6. Enter a new password that meets the password rules. 7. Confirm the password and submit.
Test Data	Email: ali.raza@gmail.com OTP: 458201 (as received) New Password: Secure@2025 Confirm Password: Secure@2025
Expected Result	Success message: "Password updated successfully." User can then log in with the new password.
Pre-Requisite	DonorNet app installed and the "Forgot Password?" button works. A valid OTP has been received by email.
Actual Result	
Pass/Fail	

Test Case ID	FP_07
Test Scenario	Password reset fails with an incorrect or expired OTP.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Click "Forgot Password?". 4. Enter a registered email and click "REQUEST OTP". 5. Enter an incorrect OTP. 6. Enter a new password and confirm it. 7. Submit.
Test Data	Email: ali.raza@gmail.com OTP: 000000 (incorrect) New Password: Secure@2025 Confirm Password: Secure@2025
Expected Result	Error message: "Invalid or expired OTP." Password is not changed.
Pre-Requisite	DonorNet app installed and the "Forgot Password?" button works.
Actual Result	
Pass/Fail	

Test Case ID	FP_08
Test Scenario	Password reset fails when the new and confirm passwords do not match.
Test Steps	1. Open the DonorNet app. 2. Navigate to the Login screen. 3. Click "Forgot Password?". 4. Enter a registered email and click "REQUEST OTP". 5. Enter the correct OTP. 6. Enter a new password and a different confirmation password. 7. Submit.
Test Data	Email: ali.raza@gmail.com OTP: 458201 (as received) New Password: Secure@2025 Confirm Password: Secure@2026
Expected Result	Error message: "Passwords do not match." Password is not changed.
Pre-Requisite	DonorNet app installed and the "Forgot Password?" button works. A valid OTP has been received by email.
Actual Result	
Pass/Fail	

5 Searching and Filtering Donors (Patient)

Test Case ID	SD_01
Test Scenario	Successful search for a donor by username.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Donors" section. 3. Enter the username of an existing donor. 4. Click "Search".
Test Data	Username: ahmed_donor
Expected Result	The donor matching the username appears in the results.
Pre-Requisite	Patient has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

Test Case ID	SD_02
Test Scenario	No results message when no donor matches the search term.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Donors" section. 3. Enter a username that does not exist. 4. Click "Search".
Test Data	Username: ghost_donor (non-existing)
Expected Result	Message appears: "No results found."
Pre-Requisite	Patient has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

Test Case ID	SD_03
Test Scenario	Filter donors by availability.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Donors" section. 3. Filter the results by "Availability Status". 4. Click "Apply Filter".
Test Data	Availability Status: Available only
Expected Result	Only donors who are currently available are listed.
Pre-Requisite	Patient has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

Test Case ID	SD_04
Test Scenario	Filter donors by blood type.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Donors" section. 3. Filter the results by "Blood Type". 4. Select a blood type. 5. Click "Apply Filter".
Test Data	Blood Type: B-
Expected Result	Only donors with blood type B- are listed.
Pre-Requisite	Patient has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

Test Case ID	SD_05
Test Scenario	Filter donors by distance.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Donors" section. 3. Filter the results by "Distance". 4. Select a range (e.g., within 10 km). 5. Click "Apply Filter".
Test Data	Distance: 10 km
Expected Result	Only donors located within the selected distance are displayed.
Pre-Requisite	Patient has signed up, been approved, and logged into the DonorNet app. Location services are enabled.
Actual Result	
Pass/Fail	

Test Case ID	SD_06
Test Scenario	Filter donors by location (city/area).
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Donors" section. 3. Filter the results by "Location". 4. Enter a city or neighborhood. 5. Click "Apply Filter".
Test Data	Location: Lahore
Expected Result	Only donors in the specified location are listed.
Pre-Requisite	Patient has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

6 Searching and Filtering Blood Banks (Patient and Donor)

Test Case ID	SBB_01
Test Scenario	Successful search for a blood bank by name.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Blood Banks" section. 3. Enter the name of an existing blood bank. 4. Click "Search".
Test Data	Blood Bank Name: Abbasi Shaheed
Expected Result	The blood bank matching the name appears in the results.
Pre-Requisite	Patient or donor has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

Test Case ID	SBB_02
Test Scenario	No results message when no blood bank matches the search term.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Blood Banks" section. 3. Enter a blood bank name that does not exist. 4. Click "Search".
Test Data	Blood Bank Name: XYZ Blood Bank (non-existing)
Expected Result	Message appears: "No results found."
Pre-Requisite	Patient or donor has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

Test Case ID	SBB_03
Test Scenario	Filter blood banks by availability.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Blood Banks" section. 3. Filter the results by "Availability Status". 4. Click "Apply Filter".
Test Data	Availability Status: Available only
Expected Result	Only blood banks that are currently available are listed.
Pre-Requisite	Patient or donor has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

Test Case ID	SBB_04
Test Scenario	Filter blood banks by blood type.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Blood Banks" section. 3. Filter the results by "Blood Type". 4. Select a blood type. 5. Click "Apply Filter".
Test Data	Blood Type: B-
Expected Result	Only blood banks with B- in stock are listed.
Pre-Requisite	Patient or donor has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

Test Case ID	SBB_05
Test Scenario	Filter blood banks by distance.
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Blood Banks" section. 3. Filter the results by "Distance". 4. Select a range (e.g., within 10 km). 5. Click "Apply Filter".
Test Data	Distance: 10 km
Expected Result	Only blood banks located within the selected distance are displayed.
Pre-Requisite	Patient or donor has signed up, been approved, and logged into the DonorNet app. Location services are enabled.
Actual Result	
Pass/Fail	

Test Case ID	SBB_06
Test Scenario	Filter blood banks by location (city/area).
Test Steps	1. Open the DonorNet app. 2. Navigate to the "Browse Blood Banks" section. 3. Filter the results by "Location". 4. Enter a city or neighborhood. 5. Click "Apply Filter".
Test Data	Location: Lahore
Expected Result	Only blood banks in the specified location are listed.
Pre-Requisite	Patient or donor has signed up, been approved, and logged into the DonorNet app.
Actual Result	
Pass/Fail	

7 Blood Bank: Accepting and Rejecting Patient Requests

Test Case ID	BB_PREQ_01
Test Scenario	View the list of patient requests.
Test Steps	1. Open the DonorNet app. 2. Log in as a blood bank. 3. Navigate to "Patient Requests". 4. Click "View More".
Test Data	Not applicable.
Expected Result	A list of requests appears with requester name, date, urgency, blood type, and Accept/Reject buttons.
Pre-Requisite	Blood bank account exists and is logged in.
Actual Result	
Pass/Fail	

Test Case ID	BB_PREQ_02
Test Scenario	Click "ACCEPT" on a request and see the confirmation pop-up.
Test Steps	1. Open the DonorNet app. 2. Log in as a blood bank. 3. Navigate to "Patient Requests". 4. Click "ACCEPT" on a request.
Test Data	Request: Ahmed Ansari Blood Type: O+ Urgency: Low
Expected Result	Pop-up appears: "Processing request: Once accepted, the blood units will be deducted from inventory. Continue?"
Pre-Requisite	Blood bank account exists and is logged in, and the request is visible in the list. Inventory has enough O+ units.
Actual Result	
Pass/Fail	

Test Case ID	BB_PREQ_03
Test Scenario	Confirm acceptance of a request.
Test Steps	1. Open the DonorNet app. 2. Log in as a blood bank. 3. Navigate to “Patient Requests”. 4. Click “ACCEPT” on a request. 5. Click “Continue” on the pop-up.
Test Data	Request: Ahmed Ansari
Expected Result	Request is marked as accepted and the blood units are deducted from the inventory.
Pre-Requisite	Blood bank account exists and is logged in, and the request is visible in the list. Inventory has enough blood.
Actual Result	
Pass/Fail	

Test Case ID	BB_PREQ_04
Test Scenario	Cancel acceptance of a request.
Test Steps	1. Open the DonorNet app. 2. Log in as a blood bank. 3. Navigate to “Patient Requests”. 4. Click “ACCEPT” on a request. 5. Click “Cancel” on the pop-up.
Test Data	Request: Ahmed Ansari
Expected Result	Pop-up closes, no action is taken, and inventory is unchanged.
Pre-Requisite	Blood bank account exists and is logged in, and the request is visible in the list.
Actual Result	
Pass/Fail	

Test Case ID	BB_PREQ_05
Test Scenario	Click “REJECT” on a request and see the confirmation pop-up.
Test Steps	1. Open the DonorNet app. 2. Log in as a blood bank. 3. Navigate to “Patient Requests”. 4. Click “REJECT” on a request.
Test Data	Request: Villa e Zehra Blood Type: AB- Urgency: High
Expected Result	Pop-up appears: “Rejecting this request will notify the requester. Do you still want to continue?”
Pre-Requisite	Blood bank account exists and is logged in, and the request is visible in the list.
Actual Result	
Pass/Fail	

Test Case ID	BB_PREQ_06
Test Scenario	Confirm rejection of a request.
